

Sussex Area Community Foundation Community Directory 2009

The Sussex Area Community Foundation is helping connect the greater Sussex region through the building of a community directory.

With the region's steady growth in recent years, this resource will be a practical way to discover what our communities have to offer. This directory will help residents and those considering living here gain quick information on services and groups in our area. Details on topics such as health, education and recreation will help users find what they need more easily. Event planners will also find the list of venues such as meeting places and sporting facilities make the job of organizing events that much easier.

The directory will be available through the SACF web site, www.sacfi.org, in printed form, and will be updated annually.

Tell us about your group!

(Please print or type and return this information to the Sussex Area Community Foundation by May 30. Please direct any questions to directory co-ordinator Vanessa Packman at packmanv@nbnet.nb.ca or by calling 433-2601)
